

## TRAINING SEMINARS 2024

### Introduction to the latest version of Jonas Software

The latest version of Jonas Software has been released for all clubs. Like all previous versions, this one is full of great enhancements and upgrades to make your club even more efficient. Our full-day training seminars will review the most important features and teach you how to take advantage of the changes. As clubs seek more and more data, we will also review many reporting options in Jonas.

#### Session 1: Accounting, Membership & Jonas Reporting

This session will focus on the important changes covering system administration, accounting, and membership. This year's afternoon session will be a review of the most popular report writers in Jonas, and we will have plenty of time for Q&A to ensure you leave with answers to your questions. Highlights of this session include:

- Accounting upgrades
  - Financial reporting updates
  - New accounts payable features
  - Expanded AP invoice numbers
  - New member reporting options
  - Updated demographic reporting
  - Updated text messaging options
  - Updated system security features
- Afternoon Session: Jonas reporting options

#### Session 2: F&B Point of Sale Training Seminar

This session will prepare your Food & Beverage staff to take advantage of the new features in Jonas. This year's afternoon session will be a review of the best Point of Sale Reports in Jonas, and we will have plenty of time for Q&A to ensure you leave with answers to your questions. Highlights of this session include:

- Updated meal coursing options
  - Tricks to clean up your system
  - New mobile POS options
  - New online ordering features
  - Preparation option updates
  - Updates to POS menu design
  - Chit splitting updates
  - Updated reporting options
- Afternoon Session: The best Point of Sale reports in Jonas
